# Party Wall Batts and Blanket

This is critical in multi residential construction where dwellings are built side by side. Close proximity of dwellings means noise transfer between dwellings can also be a challenge.

Fletcher Protect® has been developed to meet the compliance of fire and address the challenge of noise transfer between multi-residential dwellings.

MATERIAL R-VALUE m <sup>2</sup> K/W	THICKNESS mm	WIDTH mm	LENGTH mm	PIECES PER PACK	PRODUCT CODE
Batt	50	300 x 2	1200	10	4010579 (938020)
Batt	100	168	1200	10	4021102
Foil Faced Blanket	50	300	5000	4	4021101

**PROTECT™ Party Wall stonewool batts and blanket are constructed from non-combustible stonewool and are specifically designed for fire rated building elements, such as party or separating wall constructions between adjacent tenancies in Class 1 buildings.**

## Application

PROTECT™ Party Wall stonewool batts and blanket are intended for use where the NCC requires the use of a mineral wool to pack gaps between the top of a fire resisting, separating wall construction and the underside of a non-combustible roof membrane, PROTECT™ Party Wall stonewool batts and blanket should be fitted with a minimum of 20% compression leaving no voids.

All PROTECT™ Party Wall stonewool batts and blanket must be installed as per the architectural specification or system specific test description.
